BRUSHED has been a favorite collection in the past and has been updated with a fresh new color palette from the original (candy apple, green apple). It is certainly a bright but rich in depth color palette. I highly recommend purchasing the [Multi Window Squares Thin Cuts](#) & the [Floral Garden Embossing Folder](#), both of which you may own already. These papers are very pretty and the floral and butterflies stamps sets add a lovely layer of design to the artwork.
