I chose not to use the Workshop Kit (but you can and create even more pages). I used the Sweet Safari Paper pack with stickers & modified the custom cardstock too. You will find by adding the x9023 MIXINS paper pack, I was able to create a variety of themed layouts that are versatile in color:

1. Sweet Dreams blue/yellow combo with the clouds is adorable!
2. Playtime is bolder and perfect for toddlers (circus, fun games, stuffed fave pets, etc.)
3. Adventure avocado/espresso/sundance combo gives it a strong color wheel that is perfect for any adventure you want it to be!
4. Cute as a button is an array of sundance/bluebird/red which works so well together. Zoo, animal crackers, playground, funny faces ... so many options for this layout. If you need to add more photos flip flaps work great! But this layout could have a 4x12 pocket plus page added too!
5. Lastly, SWEET is a peach/chocolate combo (baby, girls). Remember, if you take out the title and the baby stamped images, this page would do nicely for teens, friends or other themed photos.
6. It is definitely a variety of beautiful pages for both babies, toddlers, boys and girls. Just think beyond your vision in what you could do with these layouts ...
